---

## SUMMARY

---

Motivated and adaptable individual with hands-on experience in fast-paced environments, now in my penultimate year of a Bachelor of Computer Science. With an Associate Degree in IT, I bring strong problem-solving skills, a solid work ethic, and a drive for continuous learning. Actively seeking an internship to apply my technical knowledge, contribute effectively and gain industry experience.

## EXPERIENCE

---

### Check In and Ramp Agent

#### Aus Flight Handling

January 2022 - January 2023, Albury, NSW

- Facilitated passenger check-in process for 50-100 passengers per shift, including ticketing, baggage handling, and documentation verification, maintaining on-time performance and adhering strictly to airline regulations.
- Managed aircraft ramp operations, including loading and unloading baggage and freight, ensuring timely departures and arrivals in accordance with airline on-time performance standards.
- Monitored and maintained accurate baggage tracking and handling processes, ensuring a 100% success rate in baggage delivery with no instances of lost or delayed bags during shifts.
